HIGHLIGHTS

PING

G430 MAX 10K DRIVER
It's called MAX 10K because it eclipses the 10,000 g-cm² combined MOI threshold, setting a record and making it PING's straightest and most forgiving driver ever. A fixed backweight, PING's largest head profile, and a Carbonfly Wrap crown help G430 MAX 10K launch the ball higher with less spin for consistently longer and straighter results

THE ALL NEW RMX
RMX VD NEW
for Athlete

YAMAHA RMX VD
Yamaha has launched its latest line of RMX VD. The new RMX series seizes the ultimate distance, trajectory and feel at a high level. This newly developed 'Bull's-eye Face' succeeds in optimizing all three factors of flight by designing a clubface that produces a high initial velocity when hit just above the centre of the face. The RMX VD Bull's Eye Face efficiently increases the clubhead's ability to maximize flight distance. The golf clubs were created to provide a sense of fulfilment to players every time they hit the ball.

XXIO

XXIO 13

XXIO 13's suite of unique technologies strategically optimizes performance within the toe and heel portions of every new clubhead. It's never been simpler for moderate swing speed golfers to enjoy greater distance and easier golf.
